SERMON NOTES

HEALTH NUGGET

What garlic can do for you:

Boost immunity: In test tubes, garlic appears to kill cancer cells, and studies involving people show some of the same outcomes.

Work as an anti-inflammatory: Research has shown that garlic oil works as an anti-inflammatory. So, if you have sore and inflamed joints or muscles, rub them with the oil.

Give you better hair & skin: Garlic's antioxidants and antibacterial properties can clear up your skin by killing acne-causing bacteria. Some data shows rubbing raw garlic over pimples can clear them away. Be aware, though, that it could cause a burning sensation on your skin.

Improve cardiovascular health: The verdict is still out on whether garlic improves your cholesterol levels, but research does indicate it can have a positive impact on your arteries and blood pressure.

HOW TO FIND CHRIST

When people try to find Christ without first realizing their great need of Him; without realizing their own resources are not sufficient, they always end up frustrated. Many go through unnecessary hardships before they admit their need for Christ; just as some don't feel the need for fire insurance until their house is on fire. It's the sense of need that makes the difference; and some never come to the point of giving up on themselves, which is what surrender is all about. Have you ever had the impression that God doesn't care about you? Ever felt He didn't even know your address? Perhaps you haven't yet come to the point of surrender in your life. Perhaps you're still holding on to the idea that you can do something yourself. Remember friend, we can't find Christ until we search with all our heart, as though it were a life and death issue. And we can't do that until we've given up on ourselves and on every other human resource.. When we do realize our need, the only action we take is to admit our helplessness and ask God to take over.
